## SAFETY DATA SHEET

## GatorPerform 9-2-9 (91107)

## Section 1. Identification

| GHS product identifier | $:$ GatorPerform 9-2-9 |
| :--- | :--- |
| Chemical name | : Liquid fertilizer |
| Other means of <br> identification <br> Product type | $: 91107$ |
|  | $:$ Liquid |

Identified uses GatorPerform 9-2-9
is a liquid fertilizer used for plant and grass food.

| Supplier's details | : Howard Fertilizer \& Chemical 8306 S. Orange Ave. Orlando, FI. 32809 <br> Tel: 407-855-1841 Toll Free: 800-899-3141 Fax: 352-429-3396 Email: mbrooks@howardfert.com Web site: www.howardfertilizer.com |
| :---: | :---: |
| Emergency telephone number (with hours of operation) | : INFOTRAC <br> North America: +1-800-535-5053 International: +1-352-323-3500 (24/7) Contact Email: Randy.lee@infotrac.net |

## Section 2. Hazards identification

OSHA/HCS status
Classification of the substance or mixture
: This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).
:
SKIN CORROSION/IRRITATION - Category 2
SERIOUS EYE DAMAGE/ EYE IRRITATION - Category 2A

GHS label elements
Hazard pictograms

Signal word : Warning
Hazard statements
:

H319-Causes serious eye irritation.
H315-Causes skin irritation.

## Section 2. Hazards identification

Prevention
: P280 - Wear protective gloves. Wear eye or face protection.
P210 - Keep away from heat. - No smoking.
P273 - Avoid release to the environment.
P264 - Wash hands thoroughly after handling.

Response

## Storage

Disposal
Hazards not otherwise classified
: P391-Collect spillage.
P302 + P352 + P362-2 + P363-IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing. Wash contaminated clothing before reuse.
P332 + P313-If skin irritation occurs: Get medical attention.
P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313 - If eye irritation persists: Get medical attention.
: Not applicable.
: P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.
: None known.

## Section 3. Composition/information on ingredients

Substance/mixture
Chemical name
Other means of identification
:Mixture
:Liquid fertilizer
:Not available.

CAS number/other identifiers
CAS number : Not applicable.
Product code : Not available.

| Ingredient name | $\%$ | CAS number |
| :--- | :--- | :--- |
| Urea |  | $57-13-6$ |
|  |  |  |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.
There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

## Description of necessary first aid measures

Eye contact

Inhalation
: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 20 minutes. Get medical attention.
: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Maintain an open airway. Get medical attention if symptoms occur.

## Section 4. First aid measures

$\left.\begin{array}{ll}\text { Skin contact } & \begin{array}{l}\text { : } \\ \text { Ilush contaminated skin with plenty of water. Continue to rinse for at least } 20 \text { minutes. } \\ \text { Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before } \\ \text { reuse. }\end{array} \\ \text { Ingestion } & \text { Wash out mouth with water. If material has been swallowed and the exposed person is } \\ \text { conscious, give small quantities of water to drink. Stop if the exposed person feels sick } \\ \text { as vomiting may be dangerous. Do not induce vomiting unless directed to do so by } \\ \text { medical personnel. If vomiting occurs, the head should be kept low so that vomit does } \\ \text { not enter the lungs. Get medical attention if adverse health effects persist or are severe. } \\ \text { Never give anything by mouth to an unconscious person. Get medical attention if } \\ \text { symptoms occur. }\end{array}\right]$

See toxicological information (Section 11)

## Section 5. Fire-fighting measures

## Extinguishing media

Suitable extinguishing : Use an extinguishing agent suitable for the surrounding fire.
media
Unsuitable extinguishing : None known.
media

Specific hazards arising from the chemical
: Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

## Section 5. Fire-fighting measures

Hazardous thermal : Decomposition products may include the following materials:
decomposition products

$$
\begin{array}{ll}
\begin{array}{l}
\text { Special protective actions } \\
\text { for fire-fighters }
\end{array} & : \begin{array}{l}
\text { Move containers from fire area if this can be done without risk. Use water spray to keep } \\
\text { fire-exposed containers cool. }
\end{array} \\
\text { Special protective } & \text { : Fire-fighters should wear appropriate protective equipment and self-contained breathing } \\
\text { equipment for fire-fighters } & \text { apparatus (SCBA) with a full face-piece operated in positive pressure mode. }
\end{array}
$$

## Section 6. Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel
: Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For nonemergency personnel".

Environmental precautions : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to

## Methods and materials for containment and cleaning up

: Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. Do not dry sweep. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

## Section 7. Handling and storage

## Precautions for safe handling

Protective measures

Advice on general occupational hygiene
: Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Keep away from clothing.Keep away from heat. Do not reuse container.
: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures.

## Section 7. Handling and storage

Conditions for safe storage, : Store in accordance with local regulations. Store in original container protected from including any incompatibilities direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Separate from reducing agents and combustible materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

## Section 8. Exposure controls/personal protection

## Control parameters

Occupational exposure limits

| Ingredient name | Exposure limits |
| :--- | :--- |
|  |  |

## Appropriate engineering controls <br> Environmental exposure controls

: Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.

## Individual protection measures

| Hygiene measures | : Wash hands, forearms and face thoroughly after handling chemical products, before <br> eating, smoking and using the lavatory and at the end of the working period. <br> Appropriate techniques should be used to remove potentially contaminated clothing. <br> Wash after using. Ensure that eyewash stations and safety |
| :--- | :--- |
| showers are close to the workstation location. |  |

## Section 9. Physical and chemical properties

## Appearance

Physical stat
: Liquid
Color
Odor
Odor threshold
: Ammonia. [Slight]
: Not available.
pH
Melting point
Boiling point
: 6.8 [Conc. (\% w/w): 1\%]
: Not available.

Flash point
Evaporation rate
: Not available.
Flammability (solid, gas) : Not available.
Lower and upper explosive
: Not available.
(flammable) limits
Vapor pressure : Not available.
Vapor density : Not available.
Relative density : 10.18lb/gl
Solubility
Partition coefficient: n -
: Very soluble in the following materials: cold water and hot water. Not : available. octanol/water

Auto-ignition temperature : Not available.
Decomposition temperature : Not available.
Viscosity
Volatility : Not available.

## Section 10. Stability and reactivity

## Reactivity

Chemical stability : The product is stable.

Possibility of hazardous reactions
: The product is stable.
: No specific test data related to reactivity available for this product or its ingredients.
: Hazardous reactions or instability may occur under certain conditions of storage or use

Incompatible materials

Hazardous decomposition products

Conditions to avoid : No specific data.
: Reactive or incompatible with the following materials: oxidizing materials, acids and alkalis.
: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

Information on toxicological effects
Acute toxicity

| Product/ingredient name | Result | Species | Dose | Exposure |
| :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |

Irritation/Corrosion

| Product/ingredient name | Result | Species | Score | Exposure | Observation |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |

## Sensitization

There is no data available.

## Carcinogenicity

There is no data available.
Specific target organ toxicity (single exposure)
There is no data available.

## Specific target organ toxicity (repeated exposure)

There is no data available.

## Aspiration hazard

There is no data available.

Information on the likely : Dermal contact. Eye contact. Inhalation. Ingestion. routes of exposure

## Potential acute health effects

| Eye contact | : Causes serious eye irritation. |
| :--- | :--- |
| Inhalation | : Exposure to decomposition products ma |
|  | be delayed following exposure. |
| Skin contact | : Causes skin irritation. |
| Ingestion | : Irritating to mouth, throat and stomach. |

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact

Inhalation
Skin contact

Ingestion
: Adverse symptoms may include the following: pain or irritation watering redness
: No known significant effects or critical hazards.
: Adverse symptoms may include the following: irritation redness
: No known significant effects or critical hazards.

## Delayed and immediate effects and also chronic effects from short and long term exposure

## Short term exposure

Potential immediate : No known significant effects or critical hazards. effects
Potential delayed effects : No known significant effects or critical hazards.
Long term exposure

## Section 11. Toxicological information

Potential immediate : No known significant effects or critical hazards. effects

Potential delayed effects : No known significant effects or critical hazards.
Potential chronic health effects
General : No known significant effects or critical hazards.
Carcinogenicity : No known significant effects or critical hazards.
Mutagenicity : No known significant effects or critical hazards.
Teratogenicity : No known significant effects or critical hazards.
Developmental effects : No known significant effects or critical hazards.
Fertility effects : No known significant effects or critical hazards.

## Numerical measures of toxicity

## Acute toxicity estimates

| Route | ATE value |
| :--- | :--- |
| Oral | $19278.3 \mathrm{mg} / \mathrm{kg}$ |

## Section 12. Ecological information

## Toxicity

| urea | Acute LC50 100 ppm Fresh water Chronic NOEC >6 mg/L Fresh water Acute EC50 $0.042 \mathrm{mg} / \mathrm{L}$ Fresh water Acute LC50 $4 \mu \mathrm{~g} / \mathrm{L}$ Fresh water <br> Acute LC50 $21.8 \mu \mathrm{~g} / \mathrm{L}$ Fresh water Acute LC50 $2.36 \mu \mathrm{~g} / \mathrm{L}$ Fresh water Chronic NOEC $0.005 \mathrm{mg} / \mathrm{L}$ Fresh water <br> Chronic NOEC $45 \mu \mathrm{~g} / \mathrm{L}$ Marine water <br> Chronic NOEC $1.7 \mathrm{mg} / \mathrm{L}$ Fresh water Chronic NOEC $26 \mu \mathrm{~g} / \mathrm{L}$ Fresh water | Fish - Oncorhynchus mykiss Crustaceans - Cladocera <br> Algae - Pseudokirchneriella subcapitata Exponential growth phase Crustaceans - Mesocyclops hyalinus Adult <br> Daphnia - Daphnia magna - Neonate <br> Fish - Cirrhinus mrigala <br> Algae - Pseudokirchneriella subcapitata - <br> Exponential growth phase <br> Crustaceans - Acanthomysis costata Juvenile (Fledgling, Hatchling, Weanling) <br> Daphnia - Daphnia magna - Neonate <br> Fish - Jordanella floridae | 96 hours 21 days 72 hours 48 hours 48 hours 96 hours 72 hours 21 days 21 days 100 days |

## Persistence and degradability

There is no data available.

Bioaccumulative potential

| Product/ingredient name | LogPow | BCF | Potential |
| :--- | :--- | :--- | :--- |
|  |  |  |  |

## Mobility in soil

Soil/water partition
coefficient (Koc)
: There is no data available.

Other adverse effects : No known significant effects or critical hazards.

## Section 13. Disposal considerations

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

|  | DOT Classification | IMDG | IATA |
| :---: | :---: | :---: | :---: |
| UN number |  |  |  |
| UN proper shipping name | NON-DOT REGULATED | NON-DOT REGULATED | NON-DOT REGULATED |
| Transport hazard class(es) |  |  |  |
| Packing group |  |  |  |
| Environmental hazards | No | No | No |
| Additional information |  |  |  |

#### Abstract

AERG :

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available.
to Annex II of MARPOL
73/78 and the IBC Code

## Section 15. Regulatory information

U.S. Federal regulations
: TSCA 8(a) CDR Exempt/Partial exemption: Not determined
United States inventory (TSCA8b):Not determined.

## Section 16. Other information

History
Date of issue mm/dd/yyyy : 12/02/2015
Version : 1
Prepared by : Michael Brooks
Key to abbreviations : ATE = Acute Toxicity Estimate
BCF = Bioconcentration Factor
GHS = Globally Harmonized System of Classification and Labelling of Chemicals
IATA = International Air Transport Association
IBC = Intermediate Bulk Container
IMDG = International Maritime Dangerous Goods
LogPow $=$ logarithm of the octanol/water partition coefficient
MARPOL 73/78 = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution) UN = United Nations

## Notice to reader

To the best of our knowledge, the information contained herein is accurate. However, neither the above-named supplier, nor any of its subsidiaries, assumes any liability whatsoever for the accuracy or completeness of the information contained herein.
Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
